

SARS-CoV-2-S1 protein

Catalog No.	Application
K1513	SARS-CoV-2 kit

Source	Recombinant SARS-CoV-2-S1 protein obtained using mammalian cell
Structure	Consist of 695 a.a. protein with C-terminal 6xHis tag.
Molecular weight	Glycosylated protein with molecular weight of ~118 kD
Form	Clear and colorless liquid without flocculent precipitate
Purity	95% as analyzed by SDS-PAGE
Buffer	1×PBS, pH7.4
Storage instructions	Upon delivery aliquot and store at -80°C(-112°F) for up to 3 years. Avoid freeze/thaw cycles.
